Projects / MyCo / SCRUM-1 / SCRUM-15

As a user, I want to minimize the impact on environment by engaging with the MyCo ,to learn about and incorporate sustainable practices into my daily life.

+ Add Apps

### Description

#### Acceptance Criteria:

1. MyCo must be designed with energy-efficient components and operation modes to minimize power consumption.
2. It should utilize sustainable materials in its construction, prioritizing recyclable and biodegradable materials.
3. MyCo must be programmed to promote sustainable behaviors, such as encouraging users to reduce waste and conserve resources.
4. It should be equipped with sensors to monitor environmental conditions and provide feedback on energy usage and resource consumption.
5. The interaction system must adhere to ethical sourcing practices, ensuring that components and materials are obtained from responsible suppliers.
6. Regular assessments and audits should be conducted to evaluate the environmental impact of the human-robot interaction system and identify areas for improvement.
7. The project team should actively engage stakeholders in sustainability discussions and incorporate feedback into the design and implementation process.
8. The interaction system must comply with relevant sustainability standards and regulations, demonstrating a commitment to environmental responsibility.
